

Johnny Silverhand

DV-Eligible Vetting Baseline (PMC Transition) | London, UK (Relocation Ready)
N/A - Off-Grid | burnitdown@samurai.nc | linkedin.com/in/johnnysilverhand

PROFESSIONAL SUMMARY

High-integrity tactical specialist and Security Controller with extensive experience in **Compartmented Security Operations**, personnel vetting, and **managing cryptographic lifecycles**. Proven track record in the oversight of highly classified assets within contested air-gapped environments. Expert in applying **adversary logic** to harden physical and digital perimeters, ensuring absolute mission integrity for UKG-aligned defense and intelligence systems. Committed to Alex Karp's 'Patriotic Tech' mission and the protection of national digital sovereignty.

SKILLS

- Cryptographic Custodian
- Facility Security CSO
- UKG Security Policy Alignment
- Personnel Vetting (DV-Level)
- Adversary Logic Red-Teaming
- Crisis Command Control

PROFESSIONAL EXPERIENCE

Militech (Strategic Defense & Intelligence Operations) -- London/NC | **Compartmented Security Lead** | Aug 2023 -- Aug 2023

- Directed security briefings and personnel vetting for high-intensity extraction missions, ensuring 100% integrity of DV-equivalent clearance protocols.
- Served as the **Compartmented Security Officer (CSO)**, coordinating inter-agency strategic liaison between Militech command and independent tactical assets.
- Managed the full lifecycle of **cryptographic Type 1 materials**, maintaining zero-latency accountability logs in high-threat, air-gapped environments.

SAMURAI (Strategic Communications Auditing) -- NC/Global | **Strategic Auditor Frontman** | 2003 -- 2008

- Utilized mass-market communications to achieve international shift in public perception, focusing on institutional accountability and veteran integration.
- Exposed systemic institutional corruption through high-fidelity intelligence gathering, serving as a primary external auditor of corporate-state hegemony.
- Managed high-visibility strategic operations, ensuring mission-critical security of internal communications and personnel metadata.

U.S. Marine Corps (2nd Marine Division) -- Nicaragua | **Tactical Ops (Sensitive Materials)** | 2003 -- 2003

- Deployed to contested environments, participating in tactical raids focused on the protection and extraction of sensitive field communications.
- Maintained 100% security of field-standard cryptographic material while operating under active fire and intense operational friction.
- Successfully integrated advanced cybernetic mission logic (Silverhand identity) to maintain mission-readiness post-combat injury.

EDUCATION

Tactical Survival & Security Training | Streets of Night City / Nomad Clans | 1988--2003
Focus: Cryptographic Material Handling, Survivalism, and Music Theory

CERTIFICATIONS

DCRT (DoD Certified Red Team) --- Equivalent

UKNDS Crypto Custodian (In-Progress/Willing)

TECHNICAL SKILLS

Security Operations | Adversary Emulation • Gotham/Apollo Logic • Crypto Lifecycle • Red Teaming
Systems Policy | UKG Standards Alignment • IL6/FedRAMP Awareness • Personnel Vetting
Cyberware Integration | Chromed Left Arm • Sandevistan Boost • Cyberoptics • Interface Plugs

AWARDS & RECOGNITION

Night City Legend (Posthumous)
Breathtaking Achievement (Apparel Collection)
Ghost Story Status (Arasaka Corporation internal lore)
